COWS & BULLS

DROUGHTMASTER BULL - STANDING

The Droughtmaster evolved in north Queensland originally by crossing Brahman and Shorthorn cattle in an attempt to combine the desirable qualities of the two breeds to produce a breed suitable for the tropics.

Natureworks Bull

Bull Characteristics

Droughtmasters are medium to large cattle with medium maturity. They have good body length, a sleek coat, and a reputation for reasonable fertility,

ease of calving and good mothering ability under harsh conditions. Dressing percentage is high. They have a quiet temperament, are good foragers, have a high resistance to bloat and are tolerant of heat and ticks.

Fighting Bull
Desk Top Version
L 40 x W 26 x H 26cm - 2kg

The Spanish fighting bull, or toro de lidia, is a unique breed of bovine renowned for its exceptional bravery and beauty. The bull's physical build and natural aggression make this breed appropriate for the bullfight due to its impressive strength as well as its natural instinct to charge (attack).
